

"I like trading crypto to crypto and having that instant access to XMR"

gotmilk1u29

Social Media

Goals

To buy XMR from a trusted peer using bitcoin.

Personality #loyal #analytical #quicklearner

Pro decentralisation and uncomfortable with the current banking system, wants to see this dynamic change.

Bio

I am a tech savvy individual seeking to purchase xmr. I want to trade XMR to hold and maintain a healthy portfolio with no immediate plans of using it.

I have bitcoin mostly from previous trades made on bisq, I like being able to freely use my money to spend and invest without the involvement of corporate banking so I avoid trading on centralised platforms.

I would like to live society where I can choose where to place my money, with no activities linked to my identity. I do not particular enjoy the bisq user journey however, I will continue to support the decentralised P2P philosophy as I would like to see this concept progress.

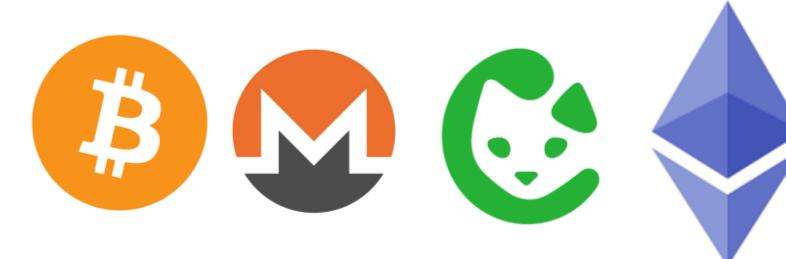

Motivation

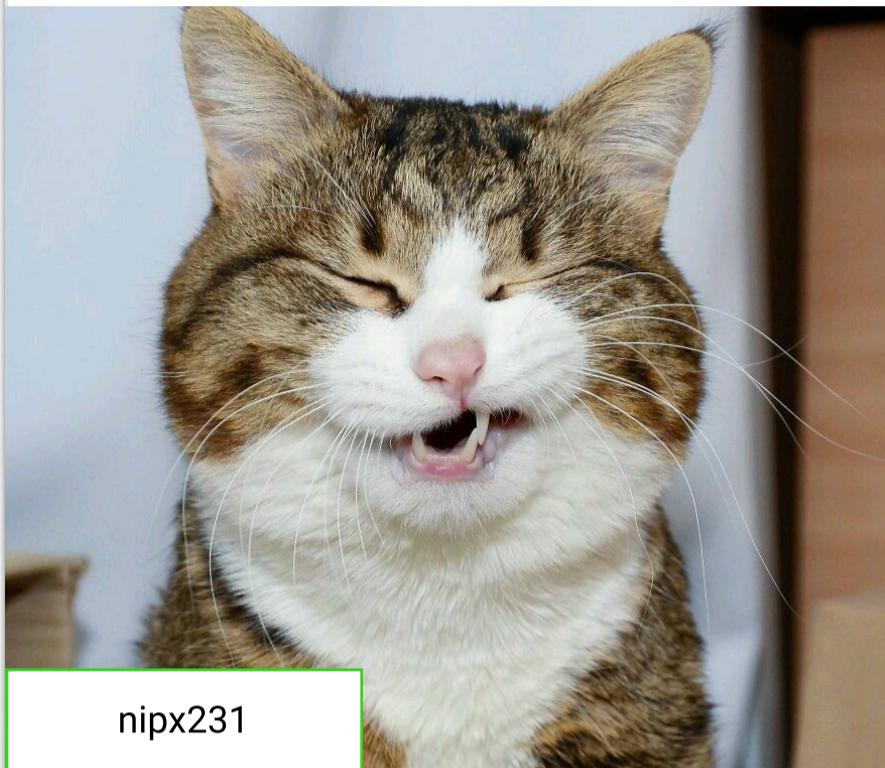

Fustrations

- Has BTC, but would not mind the idea of alternative ways of purchasing XMR
- The flawed system involving constant monitoring and identity exposer to 3rd parties

Portfolio

nipx231

“ In the future there will be atomic swaps and more decentralised exchanges ”

Social Media

Goals

To easily buy XMR from a trusted peer using bitcoin.

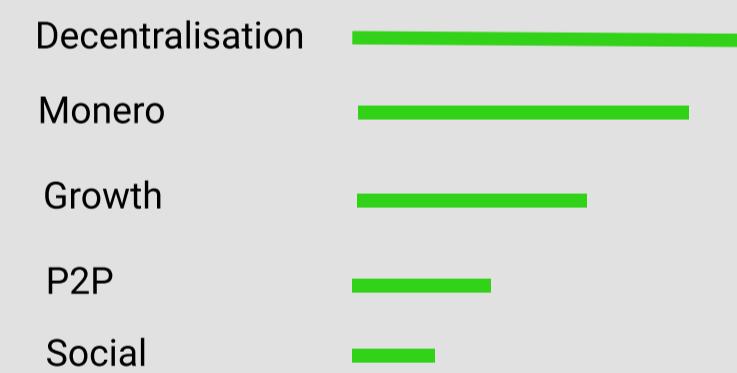

Personality #prochange #optimistic #midtechsavvy

Pro change and into discovering new things. Likes to be a part of a community and is encouraged by the idea of security and privacy.

Bio

I am a mid tech savvy individual seeking to purchase xmr. I have an understanding of decentralisation and really likes the idea of P2P. However, I may require some support while using Bisq and find the UI and user journey uncomfortable but I continue to support bisq and its philosophy with hope that it will be making progressive changes.

Motivation

Fustrations

- The control of banks and centralised organisations
- The flawed system involving constant monitoring and identity exposer to 3rd parties
- Difficulty finding a suitable decentralised platform that provides a smooth customer journey

Portfolio

“ Being able to make XMR/Fiat trades is what the Monero community is waiting for.

catman621

Social Media

Goals

To live a world with Monero as the predominant currency

Personality #loyal #techcurious #skeptic

Uncomfortable with the current banking system, wants to see this dynamic change. Know in the social media community and cares strongly about Monero.

Bio

I believe in a fiat free society, and often use Monero as currency. I don't mind trading on a centralised platform as my activities remains untraceable, it is the quickest, easiest and cheapest solution. I have tried Bisq but I refuse to use bitcoin to trade Monero due to its traceability and transparency. Looking for low fees to trade Monero and obtain it to use for an immediate purchase.

Motivation

Frustrations

- FIAT being the predominate currency
- Lack of exchange platforms that provide FIAT > XMR swaps
- The flawed system involving constant monitoring and identity exposer to 3rd parties

Portfolio

My Friend tells me they really love the idea of Bisq

clumpyleakz

Social Media

Goals

To easily buy XMR.

Personality #newbie #keenbean #openminded

Excited, enthusiastic and wants to be a part of the exclusivity, likes the idea of security and privacy.

Bio

I am looking for low fees to trade Monero to use it for an immediate purchase. I use reputable centralised platforms as there are not many alternatives available to trade Monero and it has been highly recommended by many members in the Monero community. I have heard of bisq and like the concept however, I can not use the platform because I have no bitcoin.

Motivation

Fustrations

- Difficult to find an exchange platform that suits immediate needs
- Lack of decentralised knowledge
- Has no bitcoin, so little access to certain decentralised platforms
